"So far as the registration of negroes is concerned," said Mr. R. H. Dagby. Fusion member of the board, this afternoon, "I desire to state that there is no man in Norfolk county more thoroughly opposed to their registration than I am."

CHANGE OF FRONT.

The most remarkable point about the utterances of the Straightout faction in with regard to the appointments of the electoral board is that they hall Judge William N. Portlock, of the county Circuit Court, as a deliverer, whereas they have not heretofore been especially inclined to regard the judge as their friend. The occasion for this change of front on their part in regard to the appointing power in the county is that the court named this year as one of the electoral board Mr. A. T. Stroud, of Tarner's Creek. The Straightouts frankly claim Mr. Stroud as their own. They say that his attitude toward the appointment of the straightout registrars shows that he is in sympahy with them. As a result of the appointments made to-day the Straightout registrars shows that he is in sympahy with them. As a result of the appointments made to-day the straightout pointments made to-day the straightout pointments are the will easily carry the county at the next election.

WORK OF REGISTRARS.

The registrars who have been appointed will hold office for two years, and it will be their province to pass upon the eligibility of voters at the two elections that will occur this fall, and the election of the Governor and the county believe that the registrars who were appoined to-day will prevent the re-election of Mr. A. I will be the last of fusion in Norfolk county. Mr. Martin himself, however, appears to be undisturbed by these things.

The Straightouts have four out of afteen, registrars in the county a
